### Site Purpose

---

We have been asked to design a website for a biking company. The main purpose is to show fun and exciting current events for bikers along with showing some services that they provide. These can range from servicing a bike or buying bike parts along with a new bike.

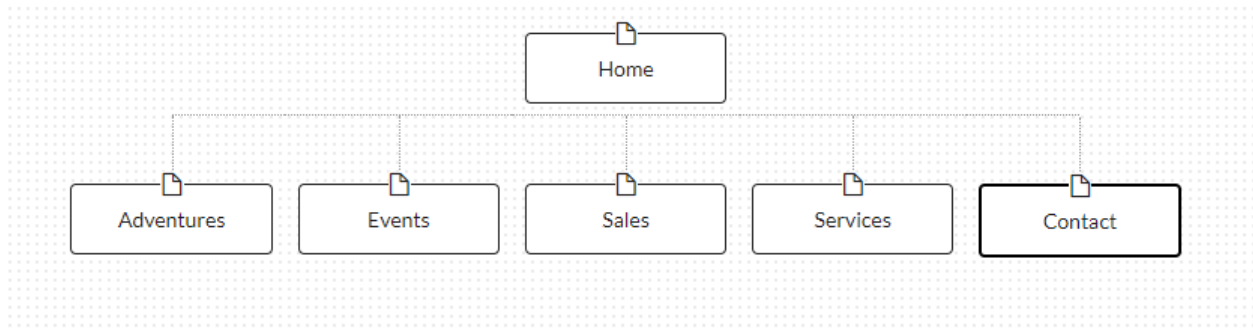

### Target Audience

---

The people this site is aiming for are the people that love going out and biking. It is mainly focusing on mountain bikers however a lot of the services can be done on street bikes as well.
